Experience

WebileApps

March 2023 – July 2023

Associate Software Engineer

Hyderabad

- Developed and optimized a scalable and responsive Frontend application in ReactJS for the Mirae Asset Mutual Fund Distributed Initiated transaction project, resulting in 60 percent reduction in user interface loading time.
- Performed different API calls and form validation and reduced page load time by 40ms .
- Developed and maintained Single Page Application, ensuring that the codebase is clean and efficient, resulting in a code quality score of 40 percent (measured using code analysis tools).
- Optimized the UI application, achieving a 25 percent improvement in application performance metrics, a 20 percent increase in overall software quality ratings, and a 15 percent enhancement in responsiveness, thereby ensuring an optimal user experience.

Publicis Sapient

January 2022 – December 2022

Junior Associate Technology

Gurgaon

- Functioned on an E-Commerce Project - The Children's Place and reduced project delivery time by 20 percent and worked as a Software Engineer.
- Successfully implemented Test Driven Development (TDD) practices resulting in a 20 percent reduction in software defects and a 15 percent improvement in overall system reliability, ensuring the delivery of robust and high-quality software solutions.
- Created high-impact features, including product search, cart, and filter functionality using ReactJS, leading to a remarkable 30 percent enhancement in the overall web application performance.
- Participated actively in Agile development approaches, contributing to daily stand-ups and working on large-scale pluggable UI components, assuring smooth integration of front-end and back-end functions.

Personal Projects

Apna Bazaar | React JS , Context Api , HTML, SASS , Javascript

February 2023

- Built a fully functional E-commerce web application to provide users with an intuitive shopping experience.
- Integrated a dynamic product catalog with search, filters, and sorting options for product discovery.
- Streamlined Frontend using React.js and State management is done with Context Api.

The CineMango - Movies App | React JS , Material-UI

March 2023

- Developed a Frontend Movies Application that aims to provide users with an engaging platform to explore movies.
- Integrated real-time data from movies API for accurate movie information and ratings.
- Designed an intuitive, responsive UI for a seamless movie browsing experience.

Portfolio Application | React JS , HTML , SASS , Javascript

August 2023

- Developed a personal portfolio website to showcase my frontend development skills and projects.
- Designed and implemented a user-friendly interface to highlight my projects and skills.
- Technologies Used: HTML5, SASS, JavaScript, React.js.

Certifications

- Modern JavaScript for React JS - ES6 [2023]
- AWS Partner: Accreditation (Technical)
- The Complete ReactJs Course - Basics to Advanced [2023]
